

I am writing to tell you about K Love. It is a radio station that has a positive message and gets me through each and every day. It is nice to have a radio station that I don't have to worry about dirty language or dirty music. I believe that K love can be used to change many lives in the area that I live in because people are hungry to hear the good news about Jesus Christ. If K-LOVE were to be displaced by an LPFM broadcaster providing other programming, I would be devastated because K love is the only postive music in my area. Thanks for your time.
